BD – PhD studentships

FAQs – Frequently Asked Questions

FCT – Fundação para a Ciência e a Tecnologia, I.P.

RBI – FCT Regulation for Research Studentships and Fellowships
1. INTRODUCTION

The Application Guide is a document that intends to assist the applicants in submitting their applications for the Call for PhD Studentships – 2018.

The information in this guide does not replace or override what is specified in the Research Fellowship Holder Statute, in the FCT Regulation for Research Studentships and Fellowships or in the Notice of the Call.

2. BEFORE SUBMITTING

2.1. Who can apply?

All individuals who satisfy the requirements specified in the Regulations and in the Notice of the Call may apply to the 2018 Call for Studentships. Therefore, before starting to prepare your application, read these documents carefully. FCT also recommends reading the Evaluation Guide for this call.

Applications may only be submitted in Português or in English.

2.2. Registration on the FCT Information System

Registration is compulsory for both applicants and supervisors.

To submit an application, the applicant, the supervisor and co-supervisor(s) must be registered on the Information and Management System of FCT (FCT-SIG). For detailed information on how to register or how to retrieve credentials refer to the instructions on the FCT-SIG website at https://sig.fct.pt/fctsig/?lang=EN.

On the FCT-SIG portal, the applicant should create or update his/her curriculum vitae and, optionally, indicate their ORCID identifier. The applicant's personal data contained within the FCT-SIG will be automatically imported to the application form and therefore should be complete and up to date.

2.3. Unique researcher ORCID ID record

This registration is optional for applicants and supervisors/co-supervisors.

To create an ORCID identifier, you will have to register as a new user at https://orcid.org/register. An ORCID identification number will be assigned to you. This number appears on the left hand side of the screen under your name. It consists of 16 digits in four groups of four, e.g., http://orcid.org/xxxx-xxxx-xxxx-xxxx.

The ORCID identifier should be introduced into the FCT-SIG under the section “Registration Information”, in the top right hand corner. In the Overview of the application form, you can see the ORCID section and an indication of its respective status (filled in/not filled in).

Using the unique identifier neither dispenses nor substitutes the analysis of the applicants’ and
supervisors’ CVs by the evaluation panels.

The information made available in the ORCID ID will only be visible if the “public” profile option is selected. The ORCID profile will not be “frozen” when the application is locked but will rather be the one that is available at whichever time the evaluators access it.

It is possible to lock the application even if the ORCID section is in a "Not Filled in" status.

2.4 Online Application Platform

Access to the online application platform is made using the FCT-SIG login credentials on the FCT website dedicated to the call for studentships: https://concursos.fct.pt/bolsas/. After logging in applicants have access to:

1. The homepage, with information concerning the call that is open;
2. Online help, where applicants may ask questions. This is the only communication channel for questions related to the call;
3. Previous calls, where the applicant may consult applications that have already been submitted;
4. Area for the applicant, with links to the application form – 2018 Call for PhD Studentships – and information on the call period;
5. An area and respective link for supervisors and co-supervisors only;

2.5 The Application Form

To access the form it is necessary to select the call – 2018 Call for PhD Studentships – and then click on "register application” to create an application. After registering, a reference code will automatically be generated that will serve as the unique identifier for the application until the end of the call. Only then will you be able to access the form to submit your proposal. You may only register one proposal.

In the application area you will find the reference code allocated to you, the access key and the instructions to send to supervisor(s).

The form becomes available after clicking on the reference code of the application. It is organised in such a way that its contents give important information to the reviewers and is made up of the following sections:

1. Information regarding the application
2. Address for correspondence
3. Applicant’s attorney-in-fact
4. Work programme
5. Hosting conditions
6. Reference and motivation letters
7. Previous studentships/fellowships
8. Professional activity
9. Academic degrees
10. Proof of residence
The application form includes fill-in instructions and a selection of relevant Frequently Asked Questions (FAQs), for all fields. In addition, the FAQs are available in the left hand side menu bar.

Section 3 of this Guide contains a detailed description of the content and information that is necessary for each section of the form.

Some of the fields in the form have a word limit and will not allow you to save texts that exceed the established limit.

2.6 General recommendations

- **Plan and complete the application process as early as possible**, in order to ensure time to obtain support from FCT should this be necessary. FCT only guarantees answers to questions submitted via the online help in the application form (help channel), up to 3 working days before the application deadline.

- Carefully read the instructions for filling in the form provided in this guide, in the Evaluation Guide or on the form itself, as well as the FAQs. Most questions are clarified in these documents; therefore, we recommend that you read these documents before contacting FCT.

- The form may be filled in directly online or, alternatively, copied from a pre-existing document to the online application and then saved. In either case, it is always possible to have an overall view of the content of the form, to validate and correct it.

- **Avoid using quotation marks (“”) to encompass parts of the text.** Certain types of quotation marks may cause that part of the text to be ignored. After inserting your text into the form, check and confirm that it looks as planned and required.

- Avoid locking the application too close to the submission deadline. There is a final verification process for locking the application that detects and identifies any mistakes in the form. Running this check close to the submission deadline may be risky.

- Do not automatically assume that the form and the rules for submission are the same as for calls of previous years. Some changes have been introduced in 2018 (check the “What has changed” document).

- Bear in mind that your CV on the curriculum vitae platform specified in the application (FCT/SIG-CV or DeGóis) should be complete and up to date when locking the proposal, since it is that information that will be recorded, associated to the application and made available to the evaluators. This information will prevail for evaluation purposes.

- Be aware of the evaluation criteria and sub-criteria available in the Evaluation Guide.
2.7 How to address questions to FCT

Questions related to the application, to the form or technical aspects concerning the website should be sent to FCT through the online help channel, available from the left hand side menu bar of the application form. Before contacting FCT, please read all the documents carefully, including the FAQs, which are available on the FCT website.

This will be the only communication channel for questions directly related to the filling-in of the application form.

3. SUBMISSION OF THE PROPOSAL

When you enter the application form, you may choose to supply your curricular information through either the FCT-SIG platform or through the DeGóis platform.

If you are still not a user of either of the two curricular platforms being used (FCT-SIG or DeGóis), we would recommend that you consider the advantages and inconveniences of each option.

In this part of the form there is information on the curricular platform you are currently using (FCT-SIG or DeGóis); if you wish to change to the other platform you may do so by clicking on the available link.

From the left hand side menu, you have access to a general overview of the proposal, to the different sections of the form, to the sections for validating and locking the application, and to frequently asked questions.

Based on the information specified in the CV, information will appear in the form regarding the applicant, academic qualifications, previous activities and current situation in scientific and/or professional terms, which will remain visible in the application form and in the application overview.

The applicant’s personal data contained within the FCT Information System (FCT-SIG) will be automatically imported to the application form and therefore should be complete and up to date.

3.1 Information Regarding the Application

Type of Studentship

Specify the type of studentship you are applying for (BD) and the main scientific field and subfield of the work to be carried out – see the table of scientific fields and respective evaluation panels available in Annex II of the Evaluation Guide.

Country where the Studentship will be held

Specify where the studentship will be held – in the country, Mixed or Abroad, depending on whether the work programme is to be carried out fully, partially or not at all in a national institution.
In case of mixed BD, it is mandatory to identify: i) a foreign host institution, ii) a supervisor/co-supervisor affiliated to the foreign host institution indicated. The lack of indication of the foreign host institution and supervisor/co-supervisor in the foreign host institution implies the automatic conversion of the application to a PhD studentship in the country, being evaluated and financed accordingly.

For mixed PhD studentships, the period of the work programme that takes place in the foreign institution may not, in any case, exceed two years (see No. 4, Art. 5 of the FCT Regulation for Research Studentships and Fellowships – RBI).

**Scientific Field Choice**

Applicants should choose the scientific main field, secondary field and subfield that better matches the proposed work programme (see Annex II of the Evaluation Guide).

It is the combination of the main field/secondary field/subfield that will determine the evaluation panel that will assess the application. The relationship between fields, subfields and evaluation panels are described in Annex II of the Evaluation Guide.

The scientific fields and subfields identified by the applicant may not be altered by the evaluation panel, not being possible to transfer the application to another panel.

**Most Representative Document**

The applicant is required to provide a document that he/she considers to best illustrate his/her scientific/professional career path. This document is of optional submission being only allowed the upload of files in PDF format, with a maximum size of 12MB.

**Disability**

The *Atestado de Incapacidade Multiuso* is the document that is accepted to attest the disability. It should be uploaded onto the application form, in the respective field.

**3.2 Address for correspondence**

Information in this field is mandatory.

The mailing address refers to the applicant’s postal contact. For the contact via electronic mail we will use your registration email.

**3.3 Applicant’s attorney-in-fact**

Insert information regarding the attorney-in-fact, responsible for representing the applicant – name, address and contact details. This field is optional.
3.4 Work Programme

This area of the application form concerns the proposed work programme. It shows the overall vision of the research proposal and provides access to each specific field within the work programme.

In the field of the application form entitled "United Nations Sustainable Development Goals (2030 Agenda)", applicants should identify one, or a maximum of three, of the 17 goals of the United Nations Agenda 2030 that is/are in line with the work programme in the Call application. This alignment should also be clearly identified in the work programme.

All information regarding the 17 goals of the United Nations Sustainable Development Agenda 2030 is available at: https://sustainabledevelopment.un.org/post2015/transformingourworld

Evaluators should validate the alignment of the work programme with the major objectives of the United Nations indicated by applicants in the respective application form.

Work Programme Title

In this field you should indicate:

- The title of the proposed work programme. The title should be concise, understandable for anyone with a general scientific background and adequate for public disclosure;
- The PhD programme to attend in the context of the application;
- Four keywords that best describe the work programme;
- The starting date and duration of the research project;
- The preferred starting date for the studentship, and respective duration

These fields are mandatory.

Periods spent abroad

In an application for a mixed or abroad studentship, the form will only be considered complete when at least one record is added which specifies the periods to be spent abroad. You should always indicate the starting date and length(s) of the period(s) to be spent abroad.

Abstract (maximum 150 words)

This section is a synthesis of the applicant’s work programme. A good summary should be clear and well-structured, showing that the applicant is able to summarise the aims of the project, the problem to be addressed and the main expected contributions of the research work.

1 Studentships may not begin before 1 September 2018 or after 31 August 2019.
State of the Art (maximum 500 words)

The state of the art, or literature review, brings together, analyses and discusses published work in the area of the work programme. Its purpose is to provide a theoretical grounding for the object of research, by referring to previous studies, which should be confronted and interrelated, especially if they are contradictory to each other.

Objectives (maximum 300 words)

The purpose of this field is to provide a description of the main research questions to be addressed and the goals to attain.

Detailed description (maximum 1000 words)

This field should contain the detailed work programme and a description of how the aims of the research project will be achieved. The descriptions should provide all the necessary elements to allow assessment by the evaluation panel, namely the methodological approach, description of tasks, their interrelatedness, sequence and schedule. It may also include a contingency plan, describing how unforeseen events will be resolved.

Milestones/Attachments

So that the Evaluation Panel may analyse the feasibility of the proposed programme, the applicant may include a graph with milestones for the different tasks. The inclusion of the timeline is not mandatory but is highly recommended. To make a timeline you may use specific software tools or an Excel file. The file should be in a PDF format, with the name timeline.pdf, and be annexed to this section.

If considered necessary, you may insert documents containing formulas, schematics, diagrams, graphs or images in this field. The maximum space per application is 10MB (5 documents of 2MB each). The authorised formats are:

- JPEG (Joint Photographic Experts Group)
- PDF (Portable Document Format – Adobe Acrobat)
- PNG (Portable Network Graphics)

Bibliographic references (maximum 30)

Use this field to specify bibliographic references that underpin the work programme.

3.5 Hosting conditions

This information is mandatory.
The hosting conditions concern:

- **Host institution(s)** – Institution(s) where you will carry out the work programme;
- **Institution(s) that award the degree** – University(ies) that will award the PhD degree;
- **Supervisor** – The person who will be responsible for monitoring and supervising the research work;
- **Industry supervisor** – responsible for the follow-up and supervision of the research work in the industry setting.

**Host Institution**

In this field the applicant should indicate the host institution from the list of FCT-acknowledged institutions that is provided in the form. If this option is not applicable to your application (for example, in the case of a studentship abroad, or in the case of national institutions not included in the list available), he/she should select “Not applicable" and specify the following information for the institution:

- **Country**
- **Name**
- **Department**
- **NUT II Area**
- **Address**
- **Contacts - telephone and email**

To apply for mixed BD, in addition to the indication of the Portuguese host institution, it is mandatory to indicate the foreign institution where the research work underpinning the work programme will take place.

**Institution awarding the degree**

In this field the applicant should indicate the Institution(s) awarding the PhD degree.

In double degree situations, when the doctor degree is awarded simultaneously by two institutions, the two institutions conferring the degree must be indicated.

**Supervisors (maximum 3)**

The purpose of this field is to identify the supervisor and co-supervisor(s) who will take on the responsibility for monitoring and supervising the applicant’s research project.
Each candidate for BD can only have a maximum of three supervisors, with one being the main supervisor (mandatory) and the other two co-supervisors (optional).

Any fully active researcher holding a PhD may be a supervisor or co-supervisor.

At this stage of the application process the supervisor and host institution’s support and acceptance statements do not need to be annexed to the form. These documents will only be necessary if the studentship is granted.

**Supervisor**

This information is mandatory.

Excluding exceptional and dully substantiated circumstances, the supervisor should be a member of the host institution, in order to enable ongoing and fruitful collaboration with the grantee. The evaluation panel will decide if other situations are suitable or not; the general guidance given by FCT is that this should be reflected in the analysis of the feasibility conditions of the work programme.

You should indicate a single supervisor. In case there are other supervisors, these may be indicated as co-supervisors (maximum of two).

The supervisor is expected to:

1. Register on the FCT-SIG management system, if he/she has not yet done so;
2. Access FCT-SIG using the relevant login credentials;
3. Introduce the ORCID identifier on the FCT Information System (FCT-SIG), under the section “Log Data”, in the top right corner. This information is optional;
4. Associate him/herself to the application in the call area;
5. Supply a *curriculum vitae* in one of the following formats (CVs of supervisors will not be accepted if sent by any other means):
   - Filling in the curricular data online, on FCT-SIG or on the DeGóis platform;
   - Attaching a PDF document with the *curriculum vitae*;
6. Lock his/her association to the application (this step notifies FCT that the supervisor has completed his/her contribution to the application).

The applicant should provide the supervisor with the reference code for his/her application [SFRH/Type of studentship/Number/2018] followed by their association key (*Chave de Associação*), so that the supervisor may associate him/herself to the application.

The application form can only be locked after the supervisor has locked his/her association to it.
Co-supervisor (maximum 2)

If a co-supervisor(s) is indicated, this information is mandatory.

For the application to be evaluated it is required that the co-supervisor(s) associate themselves to the application. Thus, co-supervisor(s) will have to:

1. Register on the FCT-SIG management system, if he/she has not yet done so;
2. Access FCT-SIG using the relevant login credentials;
3. Introduce the ORCID identifier on the FCT Information System (FCT-SIG), under the section “Log Data”, in the top right corner. This information is optional;
4. Associate him/herself to the application in the call area;
5. Supply a curriculum vitae in one of the following formats (CVs of supervisors will not be accepted if sent by any other means):
   • Filling in the curricular data online, on FCT-SIG or on the DeGóis platform;
   • Attaching a PDF document with the curriculum vitae;
6. Lock his/her association to the application (this step notifies FCT that the supervisor has completed his/her contribution to the application).

The applicant should provide the co-supervisor(s) with the reference code for his/her application [SFRH/Type of studentship/Number/2018] followed by their association key (Chave de Associação), so that the co-supervisor(s) may associate him/herself to the application.

### 3.6 Motivation and reference letters

The reference letters are a required and important element of the application.

Two reference letters are required, which must be different and signed by the issuer.

There is no set format for the reference letters; the content is up to whoever writes the letters. However, they should include: the context in which the referee is familiar with the applicant and his/her work, why and how the referee may attest to the applicant’s qualities and limitations, and the referee’s expert opinion on how the applicant’s profile is suited to the work programme.

The applicant may choose to submit either an “open reference letter” or a “closed reference letter”. In the first case, the letters should be scanned and uploaded online, on section 6.1 of the application form. In the latter case, the applicant should provide the names and e-mails of the referees to whom the letters will be requested, and the FCT’s information system will issue the referees with the necessary access codes.

The motivation letter is a required and very important element of the application. In it, the applicant should objectively explain the reasons whereby he/she is ideally suited to carry out the proposed work programme.

If a document or artistic achievement, which the applicant considers most representative or explanatory of his/her scientific/professional career, is attached to the application, he/she must justify the reason for its presentation in the respective motivation letter.
It is only necessary to submit one motivation letter. The motivation letter should be scanned and submitted, as a PDF, on the application form (at section 6.2).

Reference and motivation letters may only be submitted in Portuguese or in English. Reference and motivation letters written in other languages will not be considered.

3.7 Previous studentships/fellowships

This information is optional.

If you wish to specify the studentships/fellowships that you have received previously, you should add the records and fill in the fields regarding the year of conclusion, reference code, institution and the period during which the studentships/fellowships were held.

3.8 Professional Activity

Studentship holders are obliged to exclusive dedication, in accordance with the terms established in the Research Fellowship Holder Statute and under the terms laid down in Art. 22 of the RBI.

If you wish to maintain a professional activity compatible with the studentship under the terms of Art. 5 of the Research Fellowship Holder Statute, you need to (mandatory information):

- Specify the activity to be carried out, indicating the location, nature of the labour relationship, function/role and number of weekly hours;

- Attach a document provided by the institution where you will carry out the activity, indicating the information mentioned in the previous bullet point. If it is absolutely impossible to obtain the above-mentioned document, this may be substituted by an affidavit indicating the activity, labour relationship, function/role and number of weekly hours.

When this procedure has been concluded, the supervisor will receive an email which provides access to the information supplied by the applicant, provided the former is associated to the application; if the supervisor is still not associated, he/she will receive this email once the association with the application is established.

The supervisor should attach a document on the feasibility of the work programme in the application, in light of the added professional activities.

3.9 Academic degrees

This information is mandatory.

It is of utmost importance, under penalty of non-admission of the application, to upload the certificates of all academic degrees held by the candidate on the application form, specifying the final grade and, preferably, the grades obtained in all subjects/disciplines. Hence, for post-Bologna academic degrees it is mandatory to submit the certificate of both the 1st and the 2nd cycle of studies or, in case of an
integrated Master degree, the masters certificate must be submitted; for pre-Bologna academic degrees, it is mandatory to submit the certificate of the Graduate degree and of the Master’s degree.

Note that, as specified in the Notice of the Call and in the Evaluation Guide, the academic degree necessary for the studentship/fellowship to which you are applying should be concluded by the application deadline, and it is mandatory to present the corresponding certificate.

Select the academic degree from the corresponding list of options. If you hold an academic degree that does not correspond to any of the options listed, please choose the closest option and use the description field to provide more details.

Applicants to BD:

- with post-Bologna academic degrees, should specify the grades obtained in the 1st and in the 2nd cycle of studies, as well as the corresponding ECTS;
- with integrated Masters degrees, for whom the institutions do not provide separate grades for the 1st and 2nd cycle of study, should specify the final grade of both cycles, as well as the total ECTS obtained;
- with pre-Bologna academic degrees, should specify the grades obtained for the Graduate degree and for the Master’s degree.

The omission of degree certificate submission implies exclusion of the application from the Call.

Applicants that do not hold the master degree must mandatorily, not only identify the academic degrees held (pre-Bolona *Licenciatura* degree and/or 1st cycle post-Bolona degree) from the options listed, but also must select the option “*Declaração de capacidade para a realização de doutoramento*” (declaration of capability to perform a PhD) and submit the declaration issued by the legally and statutorily competent scientific body of the university where they intend to be admitted for PhD, proving their capacity to attend this cycle of studies (declaration/deliberation adopted by the designated body in the university statutes and/or in the provisions of the PhD regulation of the university granting the degree, which is related to the PhD studentship application).

This declaration/deliberation submission is mandatory for candidates that do not hold a master’s degree. This declaration will only be accepted if issued in accordance with the Minute / Model provided in Annex I – *Declaração*, in the Evaluation Guide of the 2018 Call (see also pages 6 and 7 of the Evaluation Guide for this call).

Submission of files/Annexes

Submit an electronic version of the certificates corresponding to each degree, with the grade for each subject where applicable (max. PDF size 4MB). It is mandatory to register all academic degrees obtained at the higher education level (Graduate Degree, Master’s Degree, PhD), attaching the corresponding certificates with an indication of the grade obtained in all curricular units (see Art. 16 of the RBI). If you have multiple PDF documents for each certificate, we recommend using software that allows you to combine multiple documents into one.
You can also submit the **diploma supplement** and your **Percentile** in the degree.

The **diploma supplement** is a supplementary document to the diploma which contains detailed information concerning the training carried out, results obtained and the characteristics of the education institution, from an international mobility perspective. In Portugal, this Diploma Supplement is regulated by Order No. 30/2008 of January 10th 2010.

The **Percentile in the concluded degree** is a document that allocates the grade obtained by a student within the total of grades awarded in the year in which the student obtained the degree, at the same education institution and for the same course.

All documentation necessary for the evaluation of the application should be annexed electronically within the appropriate fields of the application form (see paragraph number 2 of Art. 16 of the RBI), not being necessary to send papers documents to FCT.

**Degrees obtained abroad**

In order to comply with the foreseen applicable Portuguese legislation concerning the recognition of foreign qualifications, all the rights inherent to academic degrees granted by foreign higher education institutions is duly recognised to the holders of these degrees, subject to the presentation of records of acknowledgment of the academic degrees (conversion of degree and grade), requested to the Dean of a public Portuguese University, from the Head of a public polytechnic institute or from the Director-General for Higher Education (process regulated by Decree Law No. 341/2007, of October 12th).

The following procedure is **mandatory**:

- Select the degree obtained abroad and indicate if the original certificate has the registration of recognition of the academic degree, issued by a Portuguese public higher education institution or the Directorate-General for Higher Education (DGES);

- Specify whether you have any certificate of equivalence for this degree in the Portuguese education system and, if so, supply an electronic version of this certificate.

**3.10 Proof of residence**

Candidates from third-party states that are not currently living in Portugal may apply for the 2018 Call for PhD studentships, if the required studentship proceeds fully in Portuguese institutions. In this circumstance, the contracting of the studentship that is conditionally granted depends on the presentation of a valid Portuguese residence permit at the starting date of the studentship, under the terms established in Law no. 23/2007, of July 4th, last amended and republished by Law no. 102/2017, of August 28th.
Applicants who are citizens from third-party states may also apply in the following circumstances (Art. 14 of the RBI):

- Be beneficiary of the long-term resident statute;
- Be citizens of a country with which Portugal has celebrated reciprocity agreements, indicating, as reference, the publication date in the *Diário da República* that proves the attribution and registration of the equality status.

Applicants who are Portuguese citizens or citizens of a European Union member state, applying for mixed studentship or studentship abroad, should submit proof of permanent and regular residence in Portugal.

The documents which provide proof of residence are, according to the nationality of the applicants:

- Portuguese applicants: residence certificate, issued by the *junta de freguesia* of the area;
- Citizens of a European Union member-state: EU citizen registration certificate, issued by the town council, or certificate of permanent residence for the EU, issued by the *Serviço de Estrangeiros e Fronteiras* (Borders and Foreigners Services).

These documents are not required during the application, and may be submitted upon provisional awarding of the studentship, during the contracting process. However, these documents must be valid on the date of signing the studentship contract.

### 4. LOCKING THE APPLICATION

The process of locking in the application form depends on, among other factors, the association and locking of the CVs of the supervisor and the co-supervisors (if applicable), to the application. These procedures should be carried out by the applicant and by the supervisors as soon as the form is concluded. The supervisor does not fill in any form; only his/her curriculum vitae and links it to the application of the applicant he/she is supervising.

Curriculum Vitae data is “frozen” in the act of locking the application. If you change your CV after the locking process, even if this is done during the call period, the performed changes will no longer be reflected in the CV that will be available for evaluation.

Locking of the application is preceded by an automatic process that validates the application and detects errors.

After completion of the application, you should click "Validate and Lock". At this point, the entire application will be validated.

If errors are detected during validation of the application, a list of problems found in the form and in the *curriculum vitae* attached to the form will be supplied, indicating the section and the fields in which they have occurred, as well as a brief indication of the problem which has caused the error. The applicant should act so as to correct the errors specified. It is not possible to lock a form containing errors.
When there are no errors, and before locking, the applicant has to sign the following declarations:

- “I confirm that the statements in the application form are true”.
- “I hereby declare on oath that I have submitted the academic degree certificates for all academic degrees obtained”.
- “I hereby declare that I have not previously held a PhD studentship/PhD in industry studentship, directly funded by FCT”.

After validating the three statements, the applicant may lock the form. Confirmation for locking will be requested.

The application may only be locked after the form has been completely validated.

Once the application has been locked, the applicant will no longer have access to the application form. It will still, however, be possible to see its content through the “Overview of the Application”. This is also the case when the application deadline has been reached.

Please note that after an application is locked, FCT triggers the procedures to “freeze” the data that is in the submitted CVs. Thus, in the 24 hours after an application has been locked, you may not be able to see the information in your CV. This is a technical procedure and not an error of the IT/online platform. Once this period has elapsed, you will once again be able to view the complete application.

Once locked, it is not possible to unlock the application under any circumstance.

Providing false declarations or the omission of information in the application form will determine the exclusion of the application, regardless of the stage of the call in which they are detected.
