FCT is a publicly funded government agency, under responsibility of the Ministry of Science, Technology and Higher Education.

FCT provides funding and support across all areas of research.

FCT supports research with over 400 million euros per year (on average). This accounts for approximately 30% of Portugal’s annual public funding in science.

Fundação para a Ciência e a Tecnologia (FCT) is the national funding agency for science and research in Portugal.

FCT provides funding and support across all areas of research.

FCT supports research with over 400 million euros per year (on average). This accounts for approximately 30% of Portugal’s annual public funding in science.

FCT supports research with over 400 million euros per year (on average). This accounts for approximately 30% of Portugal’s annual public funding in science.

In 2015

€468 million FCT Budget for Science

€311 million National State Budget

€148.7 million European Union

€8.3 million Other
FCT supports the brightest minds, groundbreaking ideas, internationally competitive research centres and state-of-the-art research infrastructures.

Funding is awarded on a competitive basis, through rigorous, transparent, national or international peer-review, involving hundreds of independent scientists.

For greater economic impact and growth, FCT connects research with industry.

FCT contributes to inform public policy for R&D and for the Information Society, in Portugal, in Europe and globally.

FCT acts internationally, with both established and emerging science nations, ensuring researchers in Portugal have access to international research programmes, funding and networks.

FCT supports the global internet communication needs of the research and education communities in Portugal.

FCT connects research with society, by enabling open access to all publications arising from FCT-funded research, and sharing FCT-funded research with citizens.
