PROJECT AMBITION and ACHIEVEMENTS

A public–Pan-European platform of regional national funding organisations that coordinate R&I funding programmes on non-food non-food raw material.

- Promoted fundamental and applied research and innovation (R&I) cooperation through worldwide coordinated funding, providing access to funding knowledge and new markets.
- Supported non-food non-food raw material R&I through joint collaborative projects, knowledge transfer promotion as well as capacity building.
- Reduced fragmentation of R&I funding on raw materials across Europe.
- Implemented 3 Joint Transnational Calls as an attractive tool for internationalisation of the national/regional R&I community in the raw materials sector across Europe and globally.
- The 40 transnational R&I projects constitute a Raw Materials R&I programme, which expected impacts contributed to the objectives of the Horizon 2020 and the EU Raw Materials Action Plan and the European Green Deal.
